|| WHAT IS THE ASHN?

The Adult Safe Hockey Network (ASHN) is divided into two main branches:

- Adult Safe Hockey League (ASHL)
- ASHN Affiliates

During the 2013-14 season, the ASHN exceeded 83,500 registered players, while over 21,500 players in the network were registered through ASHN Affiliates playing across Canada.

The ASHL is wholly owned and operated by Canlan Ice Sports Corp. and is the largest rec hockey league in operation around the world with over 62,000 players in 2013-14.

With the combined strength of the Hockey Canada and Canlan Ice Sports brands, the ASHN continues to be the leader in Canadian adult recreation hockey programs and initiatives.

|| THE AFFILIATE PROGRAM

The ASHN Affiliate Program has been designed to provide third party league operators or team managers with access to industry-leading insurance, Hockey Canada registration and sanctioning, as well as tools and services to help make the season a successful one. The program

has been tailored to work for any league or team which is why our membership group boasts players playing anywhere from the largest rec hockey leagues in Canada to a local daytime pickup group. Regardless of size, you can trust that you'll be covered with the ASHN!

|| HOCKEY CANADA PARTNERSHIP

In 2011, Canlan Ice Sports and Hockey Canada entered into a long-term partnership in adult rec hockey designed to enhance the organization of adult recreational hockey in Canada. After only two years the partnership has seen the ASHN increase in size by over 12,000 players while the combined resources of Canlan Ice Sports and Hockey Canada has seen the program evolve to a whole new level.
